

OASys Assessment

Offender: Johnson, Matt

PNC: 2334667

Prison NOMIS: A721445

Report Writer: Tom Mariott

Date: 20/03/2020

R6.1 Current behaviour

Information in this section should include behaviour, predisposing factors and situational hazards concerning **most recent** behaviour / offence **Most recent behaviour / offence indicative of risk of serious harm**

R6.1

What exactly did s/he do
Offence details

On the 25th August 2000, Mr Johnson spotted the victim, sat in a car with 3 others, got out of his van holding a handgun and approached the car, when he was at the rear near side of the car he fired 4 shots at point blank range. The victim was later pronounced dead at the scene

Where and when did s/he do it
Caravan site, home of his wife and her new partner.

How did s/he do it (was there any pre planning, use of weapon, tool etc)
Pre-planning evident due to the fact that he obtained a gun in advance, loaded it and placed it under the driver's seat of his vehicle. He also travelled some distance to get to place of the offence.

Who were the victims (are there concerns about targeting, type, age, race of vulnerability or victim) Ex wife

Was anyone else present / involved
Offender was alone. The victim was in a car with three others.

Why did s/he do it (motivation and triggers)

He shot the victim in self defence as he thought he saw him holding a Shotgun. However the Judges Sentencing Remarks - 'I entirely reject your evidence that your ex wife ever threatened you. 'I am quite confident that you in fact deliberately obtained that revolver.

He blames emotional stress of this at the time.

Risk of Serious Harm Summary (Layer 3)

RESTRICTED

OASys Assessment

R10 Summary

R10.1

Who is at risk

Main concern remains that the boyfriend of the ex-wife is at risk

R10.2

What is the nature of the risk

Possible physical violence, serious assault, murder.

R10.3

When is the risk likely to be greatest

Consider the timescale and indicate whether risk is immediate or not. Consider the risks in custody as well as on release.

Relationship difficulties/breakdown. Loss of contact with children (who are now grownup). No imminent risk on either count at present.

R10.4

What circumstances are likely to increase risk

Describe factors, actions, events which might increase level of risk, now and in the future

Feelings of jealousy, loss of control, dented pride. If he was to have more children in a future relationship, the potential loss of contact with those children could increase risk. Becoming involved in any future relationships or relationship breakdowns.

R10.5

What factors are likely to reduce the risk

Describe factors, actions, and events which may reduce or contain the level of risk. What has previously stopped him / her?

Engagement with Psychology for assessment and appropriate one to one work/intervention. Completion of offending behaviour courses - education department's healthy relationships course. pro-social modelling, change in pro-criminal attitudes/activities, engaging with Offender Manager and Offender Supervisor.
